PACKAGED TECHNOLOGIES

Offering a broad range or turnkey packaged solutions

www.spartancontrols.com

CUSTOMER FOCUSED

Formed in 1971, our Calgary Solutions Centre was established as a local fabricator of compressor shutdown panels. In a typical year, our team will execute 300 to 500 projects of various sizes. We support non-union and union trades as required by our Customer and we are vendor-flexible for all automation packaging requirements.

We provide:

- 80,000 ft of facility space that can be utilized for fabrication, storage, staging or warehousing
- Contracted off-site facilities that are available for large or special-requirement projects, joint with sub vendors (i.e. remote instrument buildings)
- Specialized engraving and welding shops

SMALL TO LARGE PROJECT EXPERTISE

Small projects typically require fast deliveries.

Our application specialists offer the knowledge and experience to source the right material and/or recommend alternatives. With the flexibility to build on the fly, our team of technicians delivers your project on time. We will do what it takes to make sure we exceed your expectations.

Large projects can last months, even years.

A large project can be very extensive and require the experience of a qualified project management team. We offer high-level materials management and have large long-term testing and staging areas within our facility. Most importantly, we offer you the peace of mind knowing that you have the most experienced team in the industry delivering your large project.

We specialize in the following areas:

- CSA, ABSA & Testing
- Fibre optics, server & telecom cabinets
- Junction boxes & power distribution
- Programmable Logical Controller (PLC) panels
- Fire & security
- Remote Terminal Units
- Building & skids
- Operator consoles
- Educational training equipment
- Custom Solutions

COMMITMENT TO QUALITY

We are CSA-approved for in-house certification of custom assemblies for hazardous locations and general purpose areas. Our pneumatic assemblies are built to ABSA standards.

Our long-term commitment to quality is demonstrated by our ISO 9001:2015 certification for the Calgary Solutions Centre. This includes many quality practices in the areas of Customer satisfaction, continuous improvement, quality systems, testing, inspections, training and services.

CAPABILITIESVV

Proven Expertise

Our application specialists, solutions architects and subject matter experts are professionally trained and experienced in their fields.

Project Management/Single Point of Contact

Our single point of contact philosophy reduces cost, improves the Customer experience and allows us to quickly apply solutions and services to meet our Customer's automation challenges head-on.

Multiple Product Support

Through your single point of contact, you have access to our full product offering and complete technical support.

Supply Chain Management

We offer material management with a focus on our Customers' needs and requirements.

Productivity

Our focus on seamless internal processes allows us to deliver quality products and services quickly and efficiently for our Customers.

Spartan MRP

Spartan focuses on maintenance, reliability and performance (MRP) initiatives that support the core areas of your business such as safety, environmental impact, production, reliability, efficiency, and compliance.

One Purchase Order (One PO)

One PO means improved lead times, less handling and significant cost savings.

Market Packaging

- PLCs
- Junction boxes
- Contactor panels
- Power panels
- Communication/
network/telecom
panels
- Custom panels

BU Centric Packaging

- Horns and beacons
- Variable frequency
drives (VFDs)/Motor
Control Centre (MCC)
- DeltaV™
- PK Controllers
- Remote Terminal Units
(RTUs)

Custom Solutions

- Truck/rail load/unload
- Dual viscosity
- Lease Automatic
Custody Transfer
(LACT)
- Odorant injection
(mercaptan)
- Bubblers
- Nitrogen panels
- Analytical/sample
systems
- Buildings
 - Control
 - Quality Assurance
 - Continuous
Emission
Monitoring System
(CEMS)
- Analyzer

CUSTOMER FIRST

Spartan Controls Ltd. is the recognized leading provider of industrial automation, valves, measurement and process controls technology and solutions for process industries in Western Canada. Our unique partnership with Emerson and other leading solution providers enables us to connect our Customers with world-class technology, superior technical expertise and full lifecycle services.

We are a Canadian, employee-owned company with project experience spanning multiple industries. Our single point of contact reduces cost, improves the customer experience and allows us to quickly apply solutions and services to meet our customer's automation challenges head-on.

We invest to earn your business; we invest more to keep it.
